(NEXT POST OFFICE.) 30 Adelaide St. East, Toronto. Toronto 10th. April 1888 Dear Sir/
—

I have received your letter of the 6th. April inst. and beg to congratulate you on the success of the litigation in which you were engaged. I shall read the judgment of the U.S. Supreme Court with great interest.

In answer to your letter; I shall be glad to undertake the work of finding the paragraph of which you write. I shall make the search myself and report the result to you. As it happens that for the next three weeks I shall not be much pressed with other work, it is probable that you will hear from me soon.

Yours truly, Edward B. Brown James J. Storrow Esq., 40 State Street Boston. Mass.

ROLPH & BROWN, **IMPERIAL LOAN AND INVESTMENT COMPANY OF CANADA**
(Limited), Barristers, &c. **SUN LIFE ASSURANCE COMPANY OF CANADA (ONTARIO)**
342 T. T. Rolph, Edward B. Brown. IMPERIAL BUILDINGS. **SOLICITOR'S OFFICE**,
(NEXT POST OFFICE.) 30 Adelaide St. East, Toronto. Toronto Aug. 3rd 1888 Dear Sir,;

I spent yesterday in Brantford continuing the search there.

I was unable to obtain a copy of the Brantford Expositor containing the article which was copied from that paper into the Globe of the 27th. Sept. , 1875. It appeared in the Brantford paper on the 23rd. Sept. 1875. The experiments referred to in it must have been

Library of Congress

made on the 21st.Sept.1875. I enclose you a statutory declaration by one of the owners of the Expositor verifying a copy of this article and also a copy of another article which appeared in the Weekly Expositor on the 12th.Feb.1875. I also found an article in the Weekly Expositor of 14th.April.1876, of which I enclose you a copy.

There is in the Weekly Expositor of 27th.Novem.1874, an article on "visible speech", referring to Prof. Bell's researchers, taken from the Boston Advertiser .

In the Weekly Expositor of 9th.June 1876, there is an article headed "Researches in Telephony" from the Boston Transcript. This is an account of a paper read by Mr.Bell on 25th.May,1876, at a meeting of the Society of Arts, held in the Massachusetts Institute of Technology.

I shall have to visit Brantford again before long, as I was not able to complete the search yesterday. If you would like fuller particulars as to any of the articles I have mentioned , kindly let me know.

The Toronto Mail of 16th.July, 1874, contains an article from the N.Y.Times upon the invention by Mr. Elisha Gray of Chicago, of what is called a telephone.

In the Mail of 5th.December, 1876, is a paragraph about the telephone, of which I enclose a copy.

I hope to have some more results for you before long.

I should be obliged if you would send me another cheque on account, say \$200.

Yours truly Edward B. Brown James J. Storrow Esq. 40 State Street Boston Mass.
